

Pipeline Section

OISD Pipeline section primarily deals with External safety audits of various types of pipelines carrying crude oil, products, LPG, Natural gas and other Hydrocarbons like Ethane etc. Pipelines are of two types Onshore & Offshore pipelines pertaining to Hydrocarbon sector of Government undertaking /PSU or private sector. In Onshore pipelines, there are different types of cross-country pipelines, Jetty pipelines, spur lines/branch pipelines & Inside installation pipelines. OISD is involved in safety audit of SPM (Single point Mooring) installation & its connected offshore pipelines & onshore pipeline up to tank farm. OISD Pipeline section is also involved in safety audit of pipelines inside the premises of POL installation, LPG installation and Refinery (if receipt of crude oil to Refinery tank farm is through pipeline / SPM).

Various activities are carried out by this group viz. Safety Audits (ESA/SSA/PCSA), standard development and revision, Investigation of accident/incident and Knowledge dissemination in order to maintain high degree of safety in the Oil Industry.

OISD follows frequency of ESA based on risk of pipelines i.e. every 3 years for old pipelines of age more than 25 years and offshore pipelines and every 4 years for all other pipelines.

Pipeline section is carrying out External safety audits of 12 Nos. major ports of India as per request from Ministry of Shipping & water ways.

Pipeline section also monitors recommendations given to industries on quarterly basis in the OISD portal for compliance by the industry. Long-pending recommendations are reviewed at regular intervals for their closure. If not closed, the points are reviewed at yearly Apex body Safety council meeting.

The following OISD standards are applicable for the Pipeline section.

Sl.No.	Standard	Description
1	OISD-STD-141	Cross country liquid hydrocarbon pipeline including jetty pipelines (Statutory standard under Petroleum rules 2002 and OMR 2017)
2	OISD-STD-214	Cross country LPG pipeline
3	OISD-STD-226	Cross country Natural gas pipelines & CGD networks (Statutory standard under OMR 2017)
4	OISD-STD-195	Safety in Design, Operation and maintenance of Hydrocarbon gas compressor stations and terminals
5	OISD-STD-130	Inspection of piping system
6	OISD-STD-154	Training in midstream & downstream sector of petroleum industry
7	OISD-STD-188	Corrosion monitoring & control in offshore & onshore pipeline
8	OISD-STD-156	Fire protection facilities for ports handling hydrocarbons (Statutory standard under Petroleum rules 2002)
9	OISD-STD-117	Fire protection facilities for petroleum depots, terminals, pipeline installations and lube oil installations (Statutory standard under Petroleum rules 2002 and OMR 2017)

10	OISD-STD-118	Layouts for oil & gas installation (Statutory standard under Petroleum rules 2002 and OMR 2017)
11	OISD-STD-105	Work permit system (Statutory standard under Petroleum rules 2002)

The following OISD standards are also applicable for Pipeline section along with other sections.

Sl.No.	Standard	Description
1	OISD-STD-137	Inspection of electrical equipment
2	OISD-RP-149	Design aspects of safety in electrical system (Statutory standard under OMR 2017)
3	OISD-STD-178	Management of change (Statutory standard under OMR 2017)
4	OISD-GDN-206	Guidelines on safety Management system
5	OISD-STD-153	Maintenance and inspection of safety instrumentation in Hydrocarbon industry
6	OISD-STD-108	Oil storage and handling (Statutory standard under OMR 2017)
7	OISD-GDN-115	Guidelines on Fire Fighting Equipment and Appliances in Petroleum Industry
8	OISD-STD-114	Safe Handling of Hazardous Chemicals (Statutory as included in OMR 2017)
9	OISD-STD-145	Internal Safety Audits
10	OISD-STD-155	Personal Protective Equipment
11	OISD-STD-163	Safety of Control Room in Hydrocarbon industry
12	OISD-GDN-166	Guidelines for Occupational Health Monitoring in Oil and Gas Industry
13	OISD-GDN-207	Contractor Safety
14	OISD-STD-227	Emergency Response and Preparedness in Oil & Gas Industry
15	OISD-STD-228	Selection, Training & Placement of Fire Operators in Hydrocarbon & Petrochemical Industry

Users are strongly advised to refer to ALL, repeat, ALL OISD Standards / Guidelines / Recommended practice before arriving at any conclusion.
